Inspirational Speaker and Bestselling Author

# BIOGRAPHY

**Sergio Bambaren Roggero** is an internationally acclaimed bestselling author with over 25 books published to date. His works have touched the hearts of millions of readers across the globe. His most recognized book, *The Dolphin – Story of a Dreamer*, has been translated into more than 45 languages and dialects, and is considered a modern classic for those seeking to follow the voice of their heart and discover the true purpose of life.

A chemical engineer by training (Texas A&M University, USA) and holding a Master's in Business Administration, Sergio was once a successful CEO of a multinational corporation in Australia - until one day he left his position behind to pursue his true calling.

This radical life change now forms the foundation of his work as a speaker: inspiring people to live with courage, authenticity, and meaning—whether in their personal life, the business world, or in any area that enriches and uplifts both individual and collective life, materially or spiritually.

*Sergio Bambaren*

Sergio currently lives on the coast of Tenerife in harmony with nature. He is an active ambassador for ocean conservation and supports organisations such as Dolphin Aid. In his talks, he blends lived wisdom, spiritual depth, and practical inspiration - using language that speaks equally to the heart and the mind. Whether at international conferences, in televised interviews, or in exclusive high-level retreats, his message resonates deeply.

Inviting Sergio Bambarén as a speaker means offering far more than just a lecture. It is about creating space for strategic reflection, personal and spiritual growth, value-based dialogue, and new sustainable impulses for modern leadership.

He brings depth, calm, and clarity to fast-paced environments often dominated by pressure and performance. With his authentic life story, poetic voice, and rare ability to inspire with few words, he creates moments of inner connection - and inspires a new kind of leadership: one rooted in meaning, humanity, and courage.

A true “poet of the soul” and “master of inspiration,” Sergio is a speaker who doesn’t just speak - he leaves a lasting mark. A man who leads by example in the way he lives.
